

EZ Clip™ Wound Closures (9mm)

Easier and faster to use than conventional sutures and needles

9mm wound closing kit perfect for rapidly closing wounds, providing maximum holding force with minimal trauma: don't spend unnecessary time with suture material and a needle.

Suitable for rats and mice, they are much easier and faster to use than conventional sutures and needles.

Use the Applier as you would a staple gun to close the wound easily and quickly. There's no need for assistance to operate the applier or remover.

The applier will hold 20, 9mm clips, which are held firm and ready for use by rustles beryllium-copper springs.

When the wound is healed, the clips can be easily removed with the Clip Remover. All components may be purchased as a kit or individually.

Features

- Smaller "teeth" provide better clamping and wound closure of the animal's skin
- Clips are easier to remove after healing
- Less trauma to animals... particularly mice
- Can be used with your existing 9mm appliers and removers

EZ-Clips™ are 9mm in length and are packaged 20 on a rack, with 10 racks per box (200 total), or 50 racks per case (1000 total).

Racks are individually packaged in heat sealed, peel-away envelopes for cleanliness and ease of handling.

Stainless steel clips are non-pyrogenic and supplied non-sterile but may be autoclaved. In fact, Stoelting's exclusive packaging in **autoclavable polypropylene** provides unmatched ease of **sterilization and storage**, without removing clips from the package.

The **EZ Clip™ Kit 59020** includes the Applier 59043, the Remover 59046, and a case of 1000 9mm Wound Clips 59027.

Ordering information:

59020	EZ-Clip Kit
59043	Clip Applier
59046	Clip Remover
59022	EZ Clips, box of 200 (10 racks)
59027	EZ Clips, box of 1000 (50 racks)
59027-5	EZ Clips, case of 5000 (250 racks)

7mm Reflex Wound Closures

Fast, effective suturing for mice and small rodents

7mm wound clips allow for smaller, rapid suturing. The 7mm clips are a perfect size for mouse surgery.

Clips are sold in individual packs of 20 on a rack, unsterilized, but autoclavable. The applier can easily handle one full pack of clips. Autoclavable.

Wound Clip Kit 59038 includes one Applier 59036, one Remover 59037 and a box of 100 Clips 59035. All parts are also sold separately.

Ordering information:

59038	Reflex 7mm Wound Clip Kit
59036	Reflex 7mm Wound Clip Applier
59037	Reflex 7mm Wound Clip Remover
59035	Reflex 7mm Wound Clips, Box of 100 (5 racks)
59034	Reflex 7mm Wound Clips, Case of 1000 (50 racks)

Autoclip Wound Closures (9mm)

Alternative, quick, simple wound closing system

The **Autoclip Kit 59040** includes an applicator 59043, a remover 59046, and a set of 1000clips 59047.

Individual components may be ordered separately.

Ordering information:

59040	Autoclip Kit
59043	Autoclip Applicator
59046	Autoclip Remover
59047	Autoclips, box of 1000 (50 racks)

Replacement Wound Closure Clips

Replacement clips are available, packaged 20 on a rack, individually packed in heat sealed, peel-away envelopes for cleanliness and ease of handling and storage. The clips are pyrogen free and non-sterile. The autoclavable plastic packaging allows sterilization of the clips without removing them from the package.
